ABOUT ME

I am a Computer Engineer committed to continuous self-development and lifelong learning. I strive to enhance my knowledge, skills, and professional capabilities while working toward becoming a successful and effective professional. I aim to make a meaningful and lasting contribution wherever I work. I believe that failure is an essential part of growth and development, but I never believe in surrendering to it. Instead, I view challenges and setbacks as opportunities to learn, improve, and achieve greater success.

WORK EXPERIENCE

Al-Hassan solar system – Damascus, Syria

Management assistant

[01/05/2021 – 01/01/2022]

Deepika for production – Amman, Jordan

Projection and video designer

[01/08/2023 – 01/01/2024]

Arabees Media Agency – Damascus, Syria

Web developers & content creator

[01/05/2025 – Current]

Ather Volunteering Team – Damascus, Syria

Social media management, content writing, and content creation.

[01/09/2025 – Current]

Ahmad Al Khttab – Damascus, Syria

video editing , content writing, and content creation.

[Current]

Syrian Ministry of Defense – Damascus, Syria

IT Support

[01/09/2025 – 01/03/2026]

My role during this phase was to provide technical support, including the preparation, configuration, and setup of laptops, personal computers, printers, fingerprint scanners, and other technical equipment and systems.

Syrian Ministry of Defense – Damascus, Syria

Assigned as Head of the Network Department

[01/03/2026 – 01/10/2026]

During this period, my responsibilities included overseeing wired and wireless network infrastructure, as well as wired and wireless communication systems within the department where I worked. This involved supervising the implementation and installation of network and communication points throughout all floors and rooms of the building, including both wired and wireless connectivity, as the building was newly constructed and still under development.
In addition, I was responsible for troubleshooting and resolving network-related issues, including network outages, connectivity problems, and network instability, while ensuring the continuity and reliability of network services.
I was also responsible for equipping the building with IP-based surveillance cameras, including their installation, configuration, programming, and full commissioning. Furthermore, I supervised the network connectivity and inter-floor cabling, ensuring proper integration and communication between all floors and the building's central Data Center.

EDUCATION AND TRAINING

Bachelor's of Computer Engineering

Damascus University [26/10/2018 – 15/09/2024]

City: Damascus | **Country:** Syria | **Website:** https://www.damascusuniversity.edu.sy/fmee/index.php | **Final grade:** 69.07 | **Level in EQF:** EQF level 6 | **Thesis:** Daily Basket
